

## Harmonizer Boardroom

Facilitate a more constructive environment that is results-driven and stimulates a focused, positive, and engaging atmosphere. Champion clear and concise decision making that achieves your goals & targets.

- ✔ Boost engagement and open, positive dialogue among those participating.
- ✔ Arrive at solutions quickly with constructive interaction and negotiations.
- ✔ Save time and enhance your business efficiency, to achieve results.

## Harmonizer Office

The Harmonizer Office will increase the overall performance of the team and provide a better, more positive and focused approach on the challenges that are presented to them.

- ✔ Energize the workplace, increasing staff vitality and concentration.
- ✔ Free staff from unavoidable, draining smog exposure that limits their productivity.
- ✔ Alleviate workplace distractions, helping staff better manage their tasks.

## Harmonizer Work Desk

People have been trying to improve their work and study potential for centuries using a variety of teachings. Utilising the Harmonizer will provide clarity and focus, motivating you to achieve faster results.

- ✔ Better manage your activities and study goals in a healthy & productive way.
- ✔ The Harmonizer will combat any technological distractions such as Wi-Fi and bluetooth.
- ✔ Remain energized, focused, and motivated even after a long day!

## Harmonizer Business

Create an appealing and welcoming business setting that attracts ready-to-buy customers that are receptive to your products and services, whilst also promoting customer and brand loyalty.

- ✔ Make a memorable and lasting first impression for potential customers.
- ✔ Easily prime customers with a feel-good atmosphere that creates and develops trust.
- ✔ Improved, friendly customer engagement that increases sales and customer satisfaction.

## Useful Tip!

The Harmonizers can be placed in any space and they will start working right away - so you don't have to worry about setting anything up!

## Materials Used

Material basis:  
Glass/Ceramic/Resin, activated minerals (quartz, basalt, carbonates, carbons, etc.); purely natural without chemical admixtures.

## Always Working

The Harmonizer is always at work and does not require charging or maintenance, keeping you free to focus on your business.

## Made With Nature

The Harmonizer is a natural mineral product made with either precious glass, ceramic, or resin in Cyprus. Each piece is crafted by our amazing team, making each piece truly unique. As they are hand-made, this may result in some variances in size and shape, but this does not limit its capabilities or functionality and creates a unique character for every one.

## Activated Minerals

Your Harmonizer awakens the spirits, strengthens the life energy and protects against electrosmog and energetic burdens of all kinds. The activated mineral blend inside the glass, ceramic or resin housing naturally strengthens the body's own energy field and promotes a productive working environment.

## Why Harmonizer?

The Harmonizer starts working right out the box, energising your business and improving productivity. From increasing office-based communications to creating a welcoming atmosphere, the Harmonizer is the perfect essential for any business.

## How To Use

Your Harmonizer is ready-to-go, straight out the box! All you have to do is remove from the packaging and place it in your workspace, business, or office for the best results when working.

From now on, your energy field will be strengthened and stabilised from the inside out - and this has been achieved with the power of nature.

## Safety & Disclaimer

Harmonizers are not medical devices and are therefore not intended for the therapy of diseases or ailments or any other conditions requiring treatment. If you are unwell, please consult your doctor. Our recommendations and statements are in no case a substitute for medical advice and treatment.

The effect of the Harmonizers is based on experience, observations and our independent research. It intervenes in energetic or subtle processes that cannot be proven according to conventional medical criteria, just as the topics "electrosmog", "geopathy", or "electrostress" are only conditionally recognised by traditional medicine. You can find out more on our website.
